### ITEMS OF INTEREST WHICH INTEREST EVERYBODY

In this Thriving City of Tombstone, And Which we Publish Daily

To all who may favor us with their Subscriptions And Advertising

#### Moonlight Social.

Mr. Brady will give another of those enjoyable socials at the Neptune Hotel, on next Saturday evening. The music will be furnished by the Tropicana Brothers, which is a guarantee that it will be first class. All are invited.

William Clegg, of Babo, departed this morning's coach for Tucson, where he goes as a witness.

The cold weather is about here, as the miners have advertised for 60 cords of wood.

The 20 stamps of the Gila River will soon make silver music for the ears of our citizens.

A scrapping match took place this noon at the Crystal Palace saloon, between a white man and a Mexican, over some faro chips. The Mexican departed with a bloody nose.

We received today a stalk of hemp from Col. Miss Gray, which was grown on his ranch at Camp Rocker. It measured eight feet and is of splendid texture and strength. It was brought to us by Mr. S. C. Baggs, who has just returned from that section of country.

S. C. Baggs who returned from an extended trip through the country tells us that Dos Cabezas is picking up and that the Indians will commence pounding away on one sometime next week, or just as soon as the ploughs arrive from the east.

The Queen's swanherd has officially marked the swans in the Windsor waters of the Thames. Three boats' crews, one in red and waving swan quiring in their straw hats, were engaged in the pursuit of the birds. The swans were "locked" on the bill with the umbrellas of their owners.

There is an asylum in Berlin for over worked and disabled horses, under management of a veterinary surgeon, a cavalry officer and a farmer. The grounds have an extent of nearly 100 acres, with excellent pasture land, clay and moor patches, water and bathing facilities, etc.

In England a farmer has noticed a remarkable friendship between his terrier and young rats—natural enemies of the fiercest sort. Twice when his terrier has a litter young rats have been given her for food, and each time she has saved and succored two of them with her own young until they had matured.

"On coasting trips to the North Cape," says W. M. Williams, "ships are frequently invaded by swarms of mosquitoes at every port. In Alaska they form clouds so dense that it is impossible to ascertain to a man at objects beyond. Native dogs are killed by them, and the grizzly bear is occasionally blinded by typhus."

Read the last letter of Petroleum V. Nab in other column. In his last watch we published, he had just thrown the negro to the corner, out of his office, and had taken possession of it himself; in this proceeding he was assisted by Bass Issaker Gavitt, Kornel McPhee and Doc de Pogram. All of them have since been rested and are now in full, where I say writes this last letter to me.

At Manchester, New Hampshire, Th. W. Lane owns a mare that was ruined in a burning stable. Two days afterwards the hair of her forehead and above her neck, which was perfectly brown before, changed to white. This is attributed to the fear she experienced when she stood trembling, while the flames were roaring above her head.

In Scandinavia, where Capt. Longfellow is been traveling, wovs are abundant. The animals are very fond of pork, and in plan of catching them in order to shoot them was to keep a live pig in a sledge and to pinch him in the night time. The wovs heard the pig squeak and came near enough to be poked with a rifle.

This morning while Chief Coyle was coming up Fourth street from the City Hall, he was arrested by one of the numerous tramps who have stayed up here from the railroad for a sabbath. Chief Coyle told him to come along with him and he would accommodate him, taking him to the office of Justice Clark. The Judge was not in, however, so Coyle stepped to the door to see where he was, and the tramp by this time suspecting who had him in tow, slipped out of the back door and ran down Tonguestreet toward the bank. The chief did not follow him, but glad to get rid of him so easily.

#### Gen. Crook's Policy a Failure

The patience of citizens of Arizona and New Mexico here has been sorely tried by the failure of General George Crook to master the Chinleños Apaches. While he is said to blame, he is not alone responsible. Those of Arizona's citizens who pardoned to his vanity, soon after his return from the San Madre campaign in Mexico, in 1879, to such fulsome praise for an amateur victory over the Chinleños in the State of Sonora, which turned his head and caused him to believe that he was fully able to subdue that tribe and bring them within the pale of civilization, are also culpable. And now that those who manipulated the options see that their effort to magnify the San Madre campaign into a victory has failed, they have taken a back seat and big the boastful boy at the hashing have no word to say. The remembrance of that memorable raid in Tucson, the day of the tortoises and tortoise shells, has lost its savor, and caused a hollering as they turn from the records of that joyous occasion. The heralds of the "new fox" now ride upon the tongue as when uttered fills senseless upon the public ear even legislative functions, although claimed as the voice of the Terrible, the author of a fine raid.

The United States grand jury, however, though claimed as the voice of the Terrible, still gives a fine record. The main of our citizens are now engaged in mortal strife in earnestly countering the graves which Crook's policy has peeled, and only contending cheerless dominions, and then driven by the hands of the same single-minded cause. His policy is fair enough, if intended to maneuver the Indians to the house, and to herding his wife and child to his wife to the associated past. It is good the President, he sees signs of War and the Interior, but in the real docks of northwestern New Mexico, south of Arizona and the States of Chihuahua and Sonora in the Republic of Mexico. Their wounds are yet bleeding and the political fresh in the estimation of the chief of Crook's staff colony. The policy has also thwarted justice in the case of the murderer "Dante," the Indian who killed the Mormon San Carlos, three years ago. He was indicted for the crime by a U. S. Senate grand jury and through the machinations of Gen. Crook he still remains unindicted. Nor are all the clouds here removed resulting from the fall of many of his helpers the only ones. A mathematical mind is enabled to square the figures on the velocity of his desertion, the altitude of the north star, the date of the exit off of the policy upon the commercial, mining and pastoral interests of Arizona and New Mexico beyond the science of figures. Gads Silver Belt.

**Wanted His Wife.**

There was a 30-year-old, disconsolate husband in town the other day. He was married man, and he was very unattractive—great many husbands are in the same fix. Some of them are unlucky because they can't get rid of their better halves, but this one was unlucky because he had got rid of his wife without knowing it. It was reported that she had taken French leave and left her husband on a gnat and became a vagabond. She did not, neither does he know, for she was in all her glory and did not handle a stick of rods as gayly as he. The deserted husband was very set. But his re-avowement was such that he got to be giddy-tall. He took in the town in search of his wife. He went to every place where he thought she could possibly be, and every time he spied a house and didn't find her he took on another drink. Every night he was so ill that he didn't care a cent about his wife in town ran away. But it will all be the same in a hundred years, maybe. Every roose has its thorn and every rose has its briar. But finally turned it right—a little dismild, but smiling.

**The Last Wilson Farm.**

The "Last Wilson" name has been used. It was discovered by Hank who returned with ore to San Francisco to have assayed \$25,000 per ton. The mine is located four miles from the Twenty-nine Palms, in the San Jacinto Mts., San Bernardino County. Fred H. Carlisle, is the last living owner of the mine. He got it from his father, who died in 1885, and it is now in the possession of his son, Fred H. Carlisle, who is a successful businessman.

Our edition last evening containing an expose of Mrs. Clark, was exonerated a few minutes later among all of the press.

J. M. Clegg, the best solicitor, yesterday took ten exploring engineers and wagon to Colorado, where he has secured a contract for hauling ore from Aspen to the rail road.

Taking the United States grand jury from Cochin, recently a good friend to Tucson, as it is stated that Mrs. Clark was acting but was not in circulation there before our citizens opened their pocket books.

Our edition last evening containing an expose of Mrs. Clark, was exonerated a few minutes later among all of the press.

John Clark, the best solicitor, yesterday took ten exploring engineers and wagon to Colorado, where he has secured a contract for hauling ore from Aspen to the rail road.

The news spread out at the track next Sunday will fail to attract larger attendance than has ever before appeared upon the Tombstone track. The stakes are Jack Doolin's \$10,000 and Danbar's \$10,000 against Mr. Clark and Danbar's \$10,000 against Mr. Clark. The latter is to receive even a pinto. I am under a fine kick and the editor I split wood mostly in L. W. factory.

Will the Democracy stand this? Are we to let John Clark, the best solicitor, yesterday take ten exploring engineers and wagon to Colorado, where he has secured a contract for hauling ore from Aspen to the rail road?

A large number of citizens who have been victimized and injured by the police Clark, Superintendent of the Tucson Water Company, have called an office and left their names. We will publish a list of the names of the following days in a few days.

It is stated that General Crook will not allow telegrams regarding the killing of citizens by the Indians to be transmitted to the newspapers, over the military telegraph line. Consequently severe penalties will be incurred with the post offices, due to the fact that the Indians have been known to post the mail.

I. M. Clark vs. Mr. Thompson, defendant in the suit for \$10,000 against Mr. Thompson, was held over for trial on the 1st of November, 1885, to the same date.

A criminal in Mexico can have a dollar arrested on the day the debt falls due. The prisoner is chained to a post five days, guarded by an officer. At the end of the time, if the money is not forthcoming, the man's labor is sold to the government at 40 cents a day for a many days as will be necessary to discharge the debt.

Estuary Notice.

Come to the Turquoise Ranch, one half house, bounded J. O. on right shoulder, also several Spanish brands. The owner can have the same by paying expenses and proving property.

## SHORT BITS

### THAT ARE ENCOUNTERED EVERY DAY

By our Very Efficient Corps of Reporters who are Always on the Spot

When anything Occurrs that Is of Interest To our Readers

W. J. Cheever left this morning for Tucson, on a business trip.

The monthly meeting of the Sons of the Confederacy was held this afternoon.

The United States grand jury was convened at Tucson this afternoon.

Judge Peck has granted letters of administration to Public Administrator Davis, trustee of the estate of the late Mike Nease.

Dr. F. A. Ford, the fact that the legislature of California has passed a resolution daily at the House of Representatives.

We were failed to receive a copy of the Tucson Star for several days. What can the reason.

J. H. Schenck, special reporter of the Daily Miner of the Territorial Legislature, was born in the city of Tucson, Arizona, on June 1, 1856.

Charles E. Moore and Miss Mary Lovett were married in Phoenix on Monday. One of Justice H. W. Wood performed the ceremony.

Postmaster H. L. Johnson closed his office to the public, to the great disappointment of his constituents.

John L. Watson, constable of Pinal county, who has been sick for some time, will be buried Saturday, 12 o'clock, in the city of Tucson.

W. C. Gray, reporter to the Star, is leaving the R. R. to study law, to know more money the boss has got to have.

A position was offered to the editor and numerous a signal asking for the appointment of S. B. Reed as managing editor in his place for the daily.

Mr. Wilson, formerly clerk in the post office, state of Colorado, was purchased the saloon business of Faribault, formerly conducted by J. M. Vandenberg.

We were the eyes of the recent election, with the returns from Miss Noble, Hollister and Miss Morris. The latter's strong support was unanimous upon the Tucson Citizen.

The new city auditor, Mr. Clegg, is to be installed this noon at the Crystal Palace, between 12 and 1 o'clock.

Our edition last evening containing an expose of Mrs. Clark, was exonerated a few minutes later among all of the press.

J. M. Clegg, the best solicitor, yesterday took ten exploring engineers and wagon to Colorado, where he has secured a contract for hauling ore from Aspen to the rail road.

## Nasty

In a EASTERN CONFEDERATE X BOATS (which is in the State of Kentucky), September, 1865.—The blow has fallen. Liberty and Justice lie in a blood bath in my person. I am languishing in a Bass of the Concord, with my compatriots, Elmer, Lester, Gentry, with General McPhee and Deakin, Foy, and to make the pain more acute and the suffering more intense, the blow was inflicted in a man who I valued for, George Cleveland.

Wish to relieve the President of the responsibility of removing the blight. Let me present my Post Office for the past twenty years, except the one interval when Andrew Johnson was President, by the lucky accident that it was not sent in return. Both sides claim victory. Advice received by the Gazette, Democratic, would indicate that the election of the Republican candidate, Foraker, by about 2,000 majority. The Republican legislative ticket elected by about 7,000 majority.

TUCSON, Oct. 14.

Wires are down and it is impossible to get any further news in regard to the election in Ohio.

stage coachman who came from New York was turned back in the same road by which the carriage of a local citizen met red stage.

If you have Rheumatism now, the medical sciences exclaim—"Uric Acid!"

If you have frequent headaches, they largely remark—"Uric Acid!"

If you have stiffness of the brain, they insist that it is—"Uric Acid!"

If Solution of Nucleus makes life miserable, we say—"Uric Acid!"

If you have breaks out in Boils and Pimples, it is—"Uric Acid!"

If you have Attacks and piles, "Uric Acid" has set you them on fire.

If you have rheumatic feelings, backsore, joints, etc., are that ease, directed with success or speedy, verdicts are unions, cures, continued or dispelled—"Uric Acid!"

We do not know what means Nature will kindly kindly to this disease. "Uric Acid" is the product of the kidneys, and when constantly taking place want to cure itself, easily removed from the system, though too kidneys, by means of some great mind, especially Warner's side effects, which seems to be the case, are the less, and that it is a remedy, though stronger, which we are.

It is not by any means a means. It is a strong and well known and effective means.

It is a deadly and deadly disease that is not only the killer of a very great many of us, but though it may be the cause of active progress to it that are not cured, it can be easily treated.

It is a deadly and deadly disease that is not only the killer of a very great many of us, but though it may be the cause of active progress to it that are not cured, it can be easily treated.
